

Paris Motor Show - Mondial de l'Automobile 2016

I.D. – the world premiere

Notes:

This press kit as well as images and videos on the I.D. concept car are available online at: www.volkswagen-media-services.com. User ID: thinknew; password: idvw2016.

Features and technical data of production models apply to models offered in Germany. Details for other countries may vary.

All performance levels, fuel efficiency and emission figures given in this press release are forecasts as of September 2016.

World premiere of the I.D. starts the countdown to a new era for Volkswagen Volkswagen plans for the visionary I.D. to hit the road in 2020

An ambassador: the I.D. is the first Volkswagen of a new fleet of electric cars

It runs and runs: the I.D. has a range of 400 to 600 kilometres

Ready for the future: the I.D. concept car demonstrates a fully automated mode for the year 2025

Key facts – the I.D. in keywords

1. I.D. is the first Volkswagen in a completely new fleet of highly innovative electric vehicles.
2. I.D. is immediately recognisable as a zero-emission vehicle thanks to a newly developed design DNA for electric cars.
3. I.D. is driven by an electric motor with an output of 125 kW and has a range of between 400 and 600 kilometres on a single battery charge.
4. I.D. has an interior that offers an entirely new spatial experience with the Open Space.
5. I.D. will be launched as a compact electric car in 2020 parallel to the Golf.
6. As a concept car, I.D. gives us a first tangible glimpse of fully automated driving – this mode will be offered from 2025 onwards.
7. I.D. retracts its multifunction steering wheel into the dashpad when in fully automated mode ("I.D. Pilot").
8. I.D. can receive parcels using a new delivery service, if its owner isn't at home.
9. I.D. is the first compact Volkswagen based on the Modular Electric Drive Kit (MEB).
10. Volkswagen has set itself the goal of selling a million electric cars a year by 2025.
