T-Roc with new top-of-the-range engine and more customisation options

- New 2.0-litre top-of-the-range diesel engine generating 140 kW / 190 PS available to order
- “Black Style” design package for even more exclusive character and elegance
- “beats” package with 300-watt sound system and fresh design

Wolfsburg (Germany) – Volkswagen enhances the range of special equipment for the T-Roc: the popular, compact SUV is now available to order with a particularly powerful 2.0-litre diesel engine generating 140 kW / 190 PS¹. Two new design packages are also available for the T-Roc: the “Black Style” equipment package lends the T-Roc more elegance, thanks to many black, contrasting elements; the optional “beats” package includes the first-class “beats” sound system and many highlights in red – on the inside and outside of the vehicle.

T-Roc with “Black Style” design package

T-Roc with new, powerful diesel engine

The T-Roc with the optional Sport equipment line is now available with a new engine variant. The diesel engine generates 140 kW / 190 PS and boasts a torque of 400 Nm from a 2.0-litre TDI. The output is distributed to all four wheels of the T-Roc using 4MOTION all-wheel drive and the engine has been paired with a 7-speed DSG. In Germany, the starting price

of the T-Roc 2.0 TDI with 140 kW / 190 PS is €35,105.

Impressive contrast guaranteed: “Black Style” design package

The “Black Style” design package includes many different black elements, such as exterior mirror housings, side trims, the bottom radiator trim strip as well as black 18-inch “Grange Hill” alloy wheels. A further special characteristic is the new foil on the C-pillar with a grey and black graphic pattern.

The interior also carries through the aesthetics of the “Black Style” design package: the black headliner and black glossy dash pad establish a contrast to the white background lighting. In Germany, the design package for the T-Roc with optional Sport equipment line is available from €1,235 and the optional Style equipment line can be added starting from €1,575.

As an option, the roof can also be configured in black. Black, 19-inch Suzuka alloy wheels are also available to guarantee even more individual character.

New "beats" package with red highlights – on the inside and outside

The "beats" sound system lies at the core of the new, optional "beats" package featuring six loudspeakers, digital 8-channel amplifier, subwoofer and a total output of 300 watts. These components have been perfectly coordinated and bring impressive sound to the T-Roc. The Composition Media radio and App-Connect are also along for the ride.

Other "beats" package features include sills panel trims with "beats" lettering, a red dash pad and red background lighting, representing further highlights on the inside of the vehicle. The exterior is dominated by red exterior mirror housings and C-pillars with a unique foil. 17-inch Mayfield alloy wheels – featuring a red edge around the Volkswagen badge – finish off the overall appearance. In Germany, the "beats" package for the T-Roc will be available at a surcharge of €720 for the optional Style equipment line and €850 for the Sport equipment line.

¹⁾T-Roc 2.0 TDI SCR 140 kW / 190 PS – fuel consumption in l/100 km: urban 6.1–5.9 / extra-urban 4.7–4.6 / combined 5.2–5.1; combined CO₂ emissions in g/km: 137–134; efficiency class: B.
